CHARTER SCHOOL OVERVIEW

The charter school era began over 20 years ago by legislation passed called SB1441 Charter Schools Act of 1992 (Education code 47600 et seq.) now amended by AB544. Charter Schools are exciting innovative initiatives that are changing and enhancing the educational opportunities in California's public school system. Charter schools are largely founded on the concept of accountability for demonstrating high student performance standards. Charter schools are designed to operate independently, under the oversight of the granting district. Charter schools are designed to operate free of most state mandates, except those ensuring the health, safety and civil rights of our children. Charter schools empower parents, teachers and communities to custom design unique educational programs that meet the specific needs of their children.

The law requires districts to approve charter schools whose petition are "reasonably comprehensive" and practices are deemed adequate for public school education. The law also requires that the sponsoring district obtain supplementary information from the charter developer regarding a financial budget and the effects of the charter on the district. In addition, the Charter Act also requires that the charter contract contain several legal assurance statements **prohibiting** the charging of tuition, engaging in sectarian practices, and legally prohibited discriminatory practices.

BULLYING AND HARASSMENT PROCEDURES **AGAPE SCHOOLS**

PURPOSE:

The purpose of these procedures is to maintain a healthy, safe, and positive school environment that is conducive to learning; to ensure that school administrators, teachers, and staff take appropriate measures to prevent and intervene in incidents of bullying and harassment; and to prohibit the reprisal or retaliation against individuals who report these acts.

BOARD POLICY: Bullying & Cyber-bullying

Our school treats student safety as a high priority and does not tolerate bullying of any student. No student or group of students shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, cyber-bully, cause bodily injury to, or commit hate violence against any other student or school personnel.

Cyber-bullying includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyber-bullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Intervention

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. In addition, school leadership shall develop means for students to report threats or incidents confidentially and anonymously. School staff who witness bullying shall immediately intervene to stop the incident when it is safe to do so.

As appropriate, school leadership shall notify the parents/guardians of victims and perpetrators. He/she also may involve school counselors, mental health counselors, and/or law enforcement. Students may submit to a teacher or administrator a verbal or written complaint of conduct they consider to be bullying.

When a student is reported to be engaging in bullying off campus, school leadership shall investigate and document the activity and shall identify specific facts or circumstances that explain the impact or potential impact on school activity, school attendance, or the targeted student's educational performance.

When circumstances involve cyber-bullying, individuals with information about the activity are encouraged to save and print any electronic or digital messages sent to them that they feel constitute cyber-bullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. If the student is using a social networking site or service that has terms of use that prohibit posting of harmful material, school leadership also may file a complaint with the internet site or service to have the material removed.

Any student who engages in bullying on school premises, or off campus in a manner that causes or is likely to cause a substantial disruption of a school activity or school attendance, shall be subject to discipline, which may include suspension or expulsion, in accordance with district policies and regulations.

DEFINITIONS:

“Bullying” can be exhibited by an intentional physical, psychological, verbal, nonverbal, written, or electronic act or series of acts directed at another student or students, which occurs in and/or outside a school setting, that is severe, persistent or pervasive, and has the effect of doing any of the following:

1. Substantial interference with a student's education.
2. Creation of a threatening and hostile learning environment.
3. Substantial disruption of the orderly operation of the school.

Bullying is characterized by the following three (3) criteria:

1. It is intentional or deliberate aggressive behavior or harm doing;

2. It is carried out repeatedly over time; and
3. It occurs within an interpersonal relationship where there is an imbalance of power (e.g. one (1) person is physically larger, stronger, mentally quicker, or socially more powerful).

Bullying takes many forms and can include a variety of behaviors. Bullying refers to direct or indirect action, which may include but is not limited to:

1. Physical – touching, hitting, kicking, pushing, shoving, getting another person to hurt someone.
2. Verbal –name-calling, teasing, taunting, gossiping, and spreading rumors.
3. Nonverbal – threatening, intimidation, obscene gestures, isolation, exclusion, stalking, cyber bullying (bullying that occurs by use of electronic or communication devices through means of social networking, e-mail, instant messaging, text messages, tweets, blogs, photo and video sharing, chat rooms, bash boards, or web sites).

“Intimidation” is intentional behavior that would cause fear of injury or harm in a person of ordinary, reasonable sensibilities.

“School setting” means in the school, on school grounds, in school vehicles, at a designated bus stop, in transit to and from school or at any off-site activity sponsored, supervised or sanctioned by the school.

“Electronic communication” means a communication transmitted by means of an electronic or communication device, including, but not limited to, a telephone, cellular phone, or computer.

“Harassment” is unwelcome verbal, written, graphic or physical conduct relating to an individual's gender, age, race, color, sexual orientation (known or perceived), gender identity expression (known or perceived), national origin, religion, disability, English language proficiency, socioeconomic status and/or political beliefs. Harassment does not have to include intent to harm, be directed at a specific target, or involve repeated incidents. A single incident of harassment may implicate more than one protected class. For example, a student may be targeted because of his race and sexual orientation.

Harassment can create a hostile environment when it:

1. Is sufficiently severe, persistent or pervasive that it affects an individual's ability to participate in or benefit from an educational program or activity or creates an intimidating, threatening or abusive educational environment;
2. Has the purpose or effect of substantially or unreasonably interfering with a student's education; or
3. Otherwise adversely affects an individual's learning opportunities, health, safety or well-being.

“Sexual harassment” is unwelcome conduct of a sexual nature. Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature.

PROCEDURES:

STEP 1: Prevention

All schools will implement procedures to prevent and mitigate acts of bullying, harassment, and intimidation.

1. Each school principal will provide an annual review and offer professional development to all teachers and the entire school staff on the prevention, identification, reporting, investigation and resolution of allegations of bullying and harassment.
2. Schools will inform students and parents/guardians that bullying and harassment will not be tolerated. Student training shall include the definitions of bullying and harassment, examples of bullying and harassment, the reporting process, and consequences of participating in bullying and harassment towards students and staff.
3. Schools will inform students and parents/guardians about the availability and use of the *Bullying and Harassment Reporting and Investigation Form* during parent advisory meetings, and through appropriate school communication (i.e., school web site, parent/student handbook).
4. *Bullying and Harassment Reporting and Investigation Forms (blank forms only)* will be available in the main office and other locations in each school.
5. *Bullying and Harassment Reporting and Investigation Forms (blank forms only)* will be available on the District's website and in the Parent Resource Centers.
6. Schools are required to conduct developmentally appropriate prevention activities such as:
 - a. Holding frequent classroom meetings or town hall meetings with students to discuss safety concerns;
 - b. Establishing, teaching, and reinforcing rules against bullying and harassment;
 - c. Incorporating social and emotional learning into the curriculum whenever possible;
 - d. Conducting classroom lessons on relevant topics such as inclusion, sensitivity, empathy, diversity, communication, problem solving, and tolerance;
 - e. Including bullying and harassment on every agenda for building committee/leadership team, grade group, and/or school-based staff meetings;
 - f. Celebrating the annual national bullying awareness month (October); and
 - g. Conducting student and/or parent focus groups or administer school-wide surveys to assess the nature and prevalence of bullying at the school, and identify bullying hot spots in and around the building.

STEP 2: Reporting

A student or his/her parent/guardian or third party who believes s/he has been subjected to bullying and harassment is encouraged to immediately report the incident to the building principal or designee, or to any other member of the school staff, including teachers, guidance counselors, student support counselors, coaches, and administrators.

The complainant or reporting employee is encouraged to use the *Bullying and Harassment Reporting and Investigation Form*, but oral and electronic complaints shall be acceptable. The principal or designee shall complete the *Form* if the complainant chooses to make an oral or electronic report.

All reports will be documented using the *Bullying and Harassment Reporting and Investigation Form*. Reports will be promptly and appropriately investigated by the principal or principal's designee, consistent with the students' due process

rights, using the *Bullying and Harassment Reporting and Investigation Form*, within two (2) school days after receipt of the report.

NOTE: It is critical when receiving a report to determine whether immediate steps must be taken to avoid further harm, such as keeping students separated, getting medical/behavioral health aid for anyone harmed, etc.

STEP 3: Investigation

Principals or the principal's designee will determine whether bullying or harassment occurred by taking the following steps:

1. The investigation should consist of individual interviews with the complainant, the accused, and others with knowledge relative to the incident. The investigator may also evaluate any other information and materials relevant to the investigation.
2. The investigator shall attempt to secure statements from all participants in, and witnesses to, the incident(s). The complainant shall not be required to meet face-to-face with the accused.
3. When a student with limited English proficiency is a party to a complaint, interpretation and/or translation services shall be provided. The limited English proficiency of a complainant, witness, or the accused is not an acceptable reason for failure to secure a statement from him or her.
4. Inform the complainant that s/he may be accompanied by a parent/guardian during all steps of the complaint procedure.
5. Ensure that complainants are notified of available resources, such as counseling, health, and mental health services, and their right to file a complaint with local law enforcement.
6. Notify the complainant and the accused of the progress at appropriate stages of the investigation.
7. Refer the complainant to the Superintendent if the building principal is the subject of the report or complaint.
8. In cases involving potential criminal conduct, determine whether appropriate law enforcement authorities should be notified.
9. Document findings from the investigation and actions taken on the *Bullying and Harassment Reporting and Investigation Form*.
10. The obligation to conduct this investigation shall not be negated by the fact that a criminal investigation of the incident is pending or has been concluded.
11. The obligation to conduct this investigation shall not be negated by the fact that the complainant cannot identify the accused.
12. If the bullying or harassment creates imminent danger or qualifies as a violation of the Code of Student Conduct, notify the Superintendent and CEO immediately.
13. If the investigation determines that the accused engaged in conduct that constitutes a violation of this policy, the principal or the principal's designee shall take prompt and effective steps reasonably calculated to end the bullying or harassment, eliminate any hostile environment and its effects, and prevent the harassment from recurring.
14. The Principal will submit a copy of the completed *Bullying and Harassment Reporting and Investigation Form* to the Agape Central Office at (559) 486-1166 (fax) within 24 hours of the completion of the investigation.
15. Copies of the forms must be maintained in the principal's confidential file. These forms are not to be filed in the student's pupil pocket.

STEP 3: Parental Notification

If the bullying or harassment is substantiated, the principal or principal's designee will communicate with the parents/guardians of the victim and offender(s), and take the following steps:

1. The parent/guardian of the victim will be informed of the specific steps that the school will take to intervene in the reported behaviors, monitor future conduct, and protect the victim from reprisal or retaliation.
2. The parent/guardian of the victim may be invited to participate in the development of an intervention plan for their child.
3. The parent/guardian of the offender will be informed of the specific steps that the school will take to intervene in the reported behaviors and monitor future conduct, as well as the proposed consequences as stipulated in the Code of Student Conduct.
4. The parent/guardian of the offender may be invited to participate in the development of an intervention plan for their child. The intervention plan must be documented.
5. The parents/guardians of the victim and offender(s) will be provided with a copy of the intervention plan developed for their child. The intervention plan must be documented.

STEP 4: Behavioral Interventions

Schools must provide intervention and support to victims, offenders, and/or bystanders to address acts of bullying and harassment. Suggested interventions include, but are not limited to, the following actions:

1. Parent/student conferences;
2. One-to-one counseling for the victim, offender, and/or bystander with appropriate professional staff;
3. Positive behavioral supports, such as, functional behavioral assessments and check in/check out;
4. Increased adult supervision in hot spot areas and during transition times (e.g., admission and dismissal, classroom changes, lunch, recess);
5. Social skills training, including role playing;
6. Positive incentives and reinforcements for appropriate or improved behavior;
7. Development of a safety plan for the victim; and
8. Daily report.

STEP 5: Disciplinary action

While all incidents of bullying and harassment require student interventions, some incidents may require disciplinary action/consequences for the offender(s). Appropriate disciplinary action/consequences for persons committing acts of bullying and harassment, for persons engaged in reprisal or retaliation, and for persons found to have made false accusations should be applied, when appropriate, after the investigation has determined that such an offense has occurred. The disciplinary action/consequences may vary depending on the severity of the bullying and harassment. A range of disciplinary actions/consequences may be found in the Code of Student Conduct.

STEP 6: Follow-up

1. Separate conferences for the victim and offender(s) will occur within ten (10) school days after the conclusion of the investigation to ensure that the bullying and harassment has ceased, and to determine whether there is a need for additional intervention or support. Individual conferences may occur as part of the progress monitoring of the intervention plan.

2. A second conference will be held with the victim four (4) weeks after the initial conference to ensure that the bullying and harassment has ceased.

STEP 7: Central Office Support

1. In instances wherein the bullying and harassment incident is reported and unresolved, and/or parents/guardians are not satisfied with the investigation or findings; follow-up will be conducted by the Superintendent.
 - a. In the event a resolution cannot be facilitated by the Superintendent, follow-up will be conducted by the CEO. In such cases wherein the incident remains unresolved, the CEO will explain the Uniform Complaint Procedures to parents/guardians who wish to initiate a complaint under the UCP.
2. Support may be inclusive of, but not limited to, the following:
 - a. Independent review of the bullying and harassment report and investigation;
 - b. Interview of parties involved in data collection and disposition;
 - c. Review of disciplinary action as deemed appropriate, under the Code of Student Conduct related to the incident(s);
 - d. Consultation with the parent/guardian and school-based personnel on alternative strategies and supports; and
 - e. Consultation with other relevant offices regarding findings and recommended actions.
3. Agape Schools will work with the school to ensure that the allegations/incident is reported, investigated, and that the resolution is sufficient. Agape Schools may amend the findings and recommendations of the school pursuant to review.
4. Appropriate professional development will be provided to all stakeholders annually to support the implementation of this procedure. Professional development includes trainings for administrators, teachers, staff, students, parents/guardians, and community stakeholders (e.g., community-based organizations, faith-based partners, city partners and contracted providers).

MAINTENANCE AND UPDATE OF THESE PROCEDURES:

These procedures originate with the Agape Schools Central Office. Regular updating of these procedures will be executed, as needed.

Student Suspension or Expulsion

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.* which describes the noncharter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School's policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations. Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that this Policy and Procedures are available on request at the Principal's office. Discipline policies will be summarized in the school Student/ Parent Handbook which will be given to each student and parent that attend orientation.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the Executive Director or the Executive Director’s designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Executive Director or designee.

The conference may be omitted if the Executive Director or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with Charter School officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of Expulsion by the Executive Director or Executive Director’s designee, the pupil and the pupil’s guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the pupil or the pupil’s parents, unless the pupil and the pupil’s parents fail to attend the conference.

This determination will be made by the Executive Director or designee upon either of the following: 1) the pupil's presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing.

D. Authority to Expel

A student may be expelled either by the Charter School Board following a hearing before it or by the Charter School Board upon the recommendation of an Administrative Panel to be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the pupil or a Board member of the Charter School's governing board. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Executive Director or designee determines that the pupil has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of the Charter School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at the hearing;
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The person conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The person conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

I. Written Notice to Expel

The CEO or designee following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: a) Notice of the specific offense committed by the student; and b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The Executive Director or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: a) The student's name; and b) The specific expellable offense committed by the student.

J. Disciplinary Records

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the authorizer upon request.

K. No Right to Appeal

The pupil shall have no right of appeal from expulsion from the Charter School as the Charter School Board's decision to expel shall be final.

L. Expelled Pupils/Alternative Education

Parents/guardians of pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

M. Rehabilitation Plans

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as

assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to the Charter School for readmission.

N. Readmission

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Board following a meeting with the CEO or designee and the pupil and guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The CEO or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The Board of Directors shall then make a final decision regarding readmission during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The pupil's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission.

O. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

1. Notification of District

The Charter School shall immediately notify the District and coordinate the procedures in this policy with the District of the discipline of any student with a disability or student who the Charter School or District would be deemed to have knowledge that the student had a disability who is suspended for more than ten (10) school days during a school year.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b) If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a) Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

- b) If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c) Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the hearing officer shall determine whether the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and the Charter School agree otherwise.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Principal or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a) Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c) Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

INSTRUCTIONAL METHODOLOGY

Students at Carter G. Woodson Charter School shall learn via site-based instruction or a combination of site-based and independent study as defined by Education Code Section 47612.5. Both instructional delivery models emphasize standards-based teaching and ongoing authentic assessment aligned to Common Core state standards. The foundation of the Carter G. Woodson's instructional methodology is the process of effectively shifting the model of teaching centered direct instruction of content, to student driven inquiry and project based learning. Carter G. Woodson is currently using the inquiry learning model, by transforming student understanding as the central focus. Students engage in active problem solving by developing essential questions and investigating to find solutions. Teachers in turn are facilitating learning by selecting, designing and planning learning tasks, asking probing questions, observing students at work to identify misconceptions and planning follow

up experiences. Furthermore, Carter G. Woodson is in its first phase of project based learning to enhance the inquiry model by allowing students to research, develop critical thinking projects and evaluate what they are learning from different perspectives. The model has encouraged divergent thinking and assisted teachers in aligning career pathways by engaging students in making connections and thinking like experts in the field.

Carter G. Woodson students are exposed to rigorous academic standards, tasks and activities inclusive of multiple learning modalities and technology, as well as scaffolded instruction. These instructional modalities ensure that all students regardless of proficiency level, exceptionalism or learning strength have access to the content at the appropriate depths of knowledge. Standards based planning has allowed for learning opportunities that improve the ability of each student to think logically, present thoughts persuasively and translate new skills and content knowledge to applied post-secondary pathways. Learning is measured not only in the students’ ability to demonstrate proficiency on measurable performance standards and tasks explicitly aligned to the Common Core State Standards, but also in student’s ability to practically apply acquired knowledge relevant tasks across the content areas.

SCHOOL-WIDE LEARNER OUTCOMES

1. Carter G. Woodson students will demonstrate academic proficiency in ELA and Math.
2. Over the next 5 years Carter G. Woodson will increase its Academic Performance Index.
3. Carter G. Woodson will increase the number of students scoring at proficient/advanced on the Smarter Balanced Assessment.
4. Carter G. Woodson English Learners will exhibit progress towards English language proficiency.

GRADING POLICY

Classroom Grades- to evaluate student academic performance and their ability to master competency standards. Educational consultants and lead teachers are involved in the development and selection of student assessments. Benchmarks are taken by each student in alignment with state adopted standards. Courses will be calculated on the following percentage system:

60%	Completion of Course Work (class assignments, projects etc.)
30%	Mastery of Common Core Standards
10%	Class Participation & Attendance
100%	Student Achievement

Students will be assigned letter grades A through D and R for repeat, due to lack of achievement. Credit and No Credit grades may be given in courses related to vocational and career training. Although the Carter G. Woodson Individualized Learning Evaluation (report cards) will have a traditional grading section. In addition parents are distributed student benchmark reports each semester. Grades will be reported to parents by mail either by report card or progress report. Teachers are required to complete a grade analysis report at the end of each semester to review student progress.

SATISFACTORY PROGRESS

AGENCY NOTIFICATION

Notification of Rights under FERPA for Elementary and Secondary Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the [Name of school ("School")] receives a request for access.

Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

Parents or eligible students who wish to ask the [School] to amend a record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an

attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. [Optional] Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.]

School Meal Services

Carter G. Woodson Charter School, 3333 N. Bond Ave., offers breakfast and lunch at no charge to all students regardless of income levels. This reduces burdens for both families and school administrators and helps insure that all students receive nutritious meals. This practice further supports the schools efforts to eliminate all barriers to student learning and helps ensure students are not hungry at school while they are trying to learn.

This change is the result of the school implementing the Community Eligibility Provision, a new option available to schools under the National School Lunch Program and School Breakfast Program. The Community Eligibility Provision is for high-poverty schools to expand access to free school meals while reducing paperwork and streamlining meal service operation. Meal Applications will no longer be required.

The goal of the Food Services Department is to provide nutritious, appetizing meals to help students do their best in school each day.

Food Services E.C. 49590

The State Department of Education shall ensure that the nutrition levels of the meals served to school-age children pursuant to the National School Lunch Act be the highest quality and greatest nutritional value possible.

Further information regarding school nutrition may be found in E.C. 49430-49436, and the Duffy-Moscone Family Nutrition Education and Services Act of 1970. E.C. 49510-49520

Overdue, Damaged or Lost Instructional Materials

E.C. 49804; B.P. 6161.2

The school recognizes that instructional materials are an expensive resource. Instructional materials provided for use by students remain the property of the school. When property of the school is lent to students, the school expects that it shall be returned in a timely manner, with no more than usual wear and tear. If the property has been willfully cut, defaced or otherwise damaged, or if the student refuses to return it at the request of a school employee, the school shall afford the student his/her due process rights and subsequently may withhold the student's grades, diploma and transcripts until the student or parent/guardian has paid all damages. As provided by law, the parent/guardian of a minor shall be liable for all damages caused by the minor's misconduct. If the parent/guardian or student is unable to pay for the damages or return the property, the school shall provide a program of voluntary work for the student to do instead. When the work is done, the student's grades, transcripts and diploma shall be released.

School Closure Procedures

Governing Law: A description of the procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records. Education Code Section 47605(b)(5)(P).

Closure of the School will be documented by official action of the Board of Directors. The action will identify the reason for closure. The official action will also identify an entity and person or persons responsible for closure-related activities.

The Board of Directors will promptly notify parents and students of the Charter School, the District, the Fresno County Office of Education, the SELPA, the retirement systems in which the School's employees participate (e.g., State Teachers' Retirement System, and federal social security), and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the pupils' school districts of residence; and the manner in which parents (guardians) may obtain copies of pupil records, including specific information on completed courses and credits that meet graduation requirements.

The Board of Directors will ensure that the notification to the parents and students of the Charter School of the closure provides information to assist parents and students in locating suitable alternative programs. This notice will be provided promptly following the Board's decision to close the School.

The Board of Directors will also develop a list of pupils in each grade level and the classes they have completed, together with information on the pupils' districts of residence, which they will provide to the entity responsible for closure-related activities.

As applicable, the School will provide parents, students and the District with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act ("FERPA") 20 U.S.C. § 1232g. The School will ask the District to store original records of Charter School students. All student records of the School shall be transferred to the District upon School closure. If the District will not or cannot store the records, the Charter School shall work with the Fresno County Office of Education to determine a suitable alternative location for storage.

All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

As soon as reasonably practical, the School will prepare final financial records. The School will also have an independent audit completed within six months after closure. The School will pay for the final audit. The audit will be prepared by a qualified Certified Public Accountant selected by the School and will be provided to the District promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities, including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to the charter school.

The School will complete and file any annual reports required pursuant to Education Code section 47604.33.

On closure of the School, all assets of the School, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending the School, remain the sole property of Agape and, upon dissolution of the Agape non-profit public benefit corporation, shall be distributed in accordance with the Agape Articles of Incorporation. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, the School shall remain solely responsible for all liabilities arising from the operation of the School.

As the School is operated by a non-profit public benefit corporation, should the corporation dissolve with the closure of the School, the Board of Directors will follow the procedures set forth in the California Corporations Code for the dissolution of a non-profit public benefit corporation and file all necessary filings with the appropriate state and federal agencies.
